

# **The 6<sup>th</sup> CBR Africa Conference 2018**

Livingstone, Zambia 7<sup>th</sup> -11<sup>th</sup> May 2018

Conference theme: CBR for resilience building and sustainable development:  
Leave no one behind.

Co-organised by the government of Zambia, CBR Africa Network and the  
disability/CBR stakeholders in Zambia.

## **Concept note**

### **Introduction**

Community Based Rehabilitation (CBR) Africa Network (CAN) is an independent Non-Governmental Organisation that facilitates information sharing on disability, CBR and inclusive development within Africa and across the World. CAN works through sharing information via publications and the electronic media including use of the website and social media. CAN believes information sharing can facilitate learning and improvement in service delivery for persons with disabilities; and it is a key tool for inclusive development.

CAN's Niche is information sharing. This is possible through a number of activities but most importantly through organising conferences. Five CBR conferences have so far been successfully organised in different African countries (2001 – Uganda, 2004 – Malawi, 2007 - South Africa, 2010 – Nigeria and 2015 – Kenya) by CAN in collaboration with governments of the host countries, WHO, CBM, NAD, Handicap International and other local and international stakeholders. The 6<sup>th</sup> CBR Africa Conference is scheduled to take place in Livingstone, Zambia. Several CBR stakeholders and development partners are expected to take part.

### **Output**

It is anticipated that the conference will generate a variety of analytical papers and presentations in relation to the sub themes (see sub themes below). All papers presented at the conference will be summarised in a conference report and posted on the CAN website; and later they will be published in a book. Additionally, the conference is expected to stimulate public debate and discourse on the implementation of CBR and a possible transition to CBID (Community Based Inclusive Development). Delegates will discuss success, challenges and opportunities implementing CBR in Africa.

## **Expected Impact**

The conference is expected to give a greater publicity to the current CBR issues under discussion in relation to WHO CBR guidelines, the Convention on the Rights of Persons with Disabilities (CRPD) and Sustainable Development Goals (SDGs). It will mobilise efforts towards ensuring equalisation of development opportunities for persons with disabilities.
