Social Distancing

Easy Read
What’s Happening?

People are getting sick because of a virus called, coronavirus or COVID-19.

Coronavirus or COVID-19 moves from one person to another.

To stay safe.

The Government are asking us to change the way we live for a while.

This is called Social Distancing.

This means seeing less people.

And staying at home.
What’s Happening?

By **seeing less people**, and **staying at home** you are not likely to get sick.

Some things are closing:

- Schools
- Colleges
- Day-services
- Pubs and restaurants
- Churches
- Mosques

These changes won’t be forever.

**And things will get better.**

Everyone needs to follow advice from the Government.
What is Social Distancing?

Staying at home most of the time.

Not going out to meet your friends at clubs and activities.

Not touching people. Like, handshakes, hugs and kisses.

Only going out for important things like:

- Exercise
- Shopping
What about going out?

You can on only go out 1 time a day.

- You can exercise.
- You can shop for important things.
- You can go to the Doctors or Pharmacy.

You can only be with 1 other person.

The police may speak to you and ask what you are doing.

**Stay calm, they are just checking people are safe.**
Shopping

If you can. Do your shopping online.

The supermarket will bring food to your house.

Don’t worry. Food is not going to run out.

If you find this difficult.

Ask you family, support or friends to help.

If they can’t help, look for a local community delivery service,
When you do go out

Keep a distance from others.

Around 2 metres.

Stay away from crowds.

Don’t go near sick people.

Plan your route first.
Why?

This can all feel confusing.
And sometimes unfair.

But remember, **social distancing** will help:

- So you don’t get sick.
- So your friends and family don’t get sick.

The rules are the same for everyone.

We all need to help by **social distancing**.
Staying happy and healthy at home.

It is very important we look after our health at home.

Make a daily plan of activities.

Keep moving and do exercise.

Eat Healthy Food.
Staying happy and healthy at home.

Play games.

Talk to people online.

Talk to people on the phone.

If you have a garden, go outside.
Staying active.

Clean your house every day.

Do some gardening.

You can still go for walks.

**DSActive** have lots of help to stay active at home.

Remember.

This is not forever.

We need to look after ourselves and other people.

Keep in contact with us on social media.

A lot of people use our Facebook Groups. Please ask to join one.

Keep checking our website for updates.
